PROFILE

Why I'm interested in UX Design and a bit about me:

In work and education I have had the opportunity to take part in collaborative projects that tackle tasks with different perspectives and with differing goals.

The user's perspective is central in both hospitality and technology, and in my second and final years of study I had the chance to delve more deeply into the field that advocates and designs for it, UX design.

I am passionate about learning new skills through research, vocation and even trial and error. Good design makes my day and I love cooking, drawing, technology, Thai-boxing and reading.

EDUCATION

Glasgow Caledonian University '18 - '22
BSc in Computing with first class honours
